Mountain User Responsibility Code

Mountain biking offers a wide range of challenges and adventures, from easy cruising on gentle slopes to fast single-track descents and rigorous climbs. Regardless of what type of terrain you select, there are elements of risk in mountain biking that common sense and personal awareness can reduce but not eliminate. Help create a great trail experience for everyone by observing these rules and precautions:

• Always wear a helmet when riding. Helmets are mandatory for accessing lifts.
• Stay on designated trails only.
• Know your ability. Ride on trails marked for your ability. When in doubt, walk.
• Never ride under the influence of drugs or alcohol.
• Bikers should yield the right of way to hikers.
• Downhill traffic should always yield to uphill traffic.
• Maintain control of your speed at all times.
• Be prepared to stop at any time.
• Be self-sufficient. Our mountain is not patrolled, so ride with a buddy.

Environmental Code

While enjoying Snowbasin, please "tread lightly" and respect our mountain environment. Leave nothing on the mountain except your footprints; take nothing away except your memories. We thank you for helping keep Snowbasin beautiful. Please remember:

• Do not approach or disturb any wildlife you may encounter.
• Do not pick wildflowers and do not litter.
• Avoid obstructing other users' activity. Riders from varying skill and difficulty levels can cause injury. Please understand you are using the mountain at your own risk.
• Pet owners are responsible for picking up after their pets.
